

Benefits of Using Psychiatrist Helper

Psychiatrist Helper is an add-on for Helper.

Add Multiple Service Procedure Codes

- The ability to add multiple service procedure codes to a single session vs using the Save and Add feature to create a new session for each code.
- When you select the Add Procedure button, it will open the procedures library. Select the code you need to add. It will display each code added in the left-hand column.

Select a procedure from the list to display and modify the details to the right.

Procedure	Total Charge
96101	\$45.00
G8004	\$0.01

\$45.01

\$45.01

Procedure Groups

If you are using a repeated group of procedure codes, Psychiatrist Helper has the ability to create Procedure Groups. If you select the Add Procedure Group button, it will allow you to select a group of codes you have created. It will then list all those codes on the left, saving you the steps of creating 4 individual sessions in the example below.

Encounter

Enter Procedure details for the Encounter.

Select a procedure from the list to display and modify the details to the right.

Procedure	Total Charge
96101	\$125.00
90791	\$45.00
90839	\$165.00
90840	\$100.00

\$435.00

\$435.00
